## A message from the chairman

Hello and welcome to February 2022. For obvious reasons we did not have a CHAT in January and like us we sorely missed it.

So, in consultation with the CHAT Editorial staff and in line with modern technology, we are moving on-line. Welcome to MG North Leicester 2022 and the digital age.

As you read this we will either looking forward to the AGM or just had the AGM, either way the club will continue, albeit with a few changes to the committee.

One of the main topics of conversation in any other business will be the financial running of the club, whether we reinstate the monthly raffle, charge monthly subscriptions or an annual membership fee. This should, I am sure promote a lively discussion.

*Colin*

## A message from The Editor

This issue of the *Chat* heralds a new dawn in the world of classic and sports car magazine publishing. Once again, we here at *Chat House* have achieved another notable first in this very competitive sector of the international news media, by producing the only online, single-marque car club newsletter in Woodhouse Eaves.

In making this landmark breakthrough, we have had to overcome the technical challenges associated with converting from hot-metal printing to digital format, and scaling up from a folded and stapled A5 booklet to a multi-page, single sided A4 version which requires neither folding nor stapling.

These changes have also resulted in many improvements in efficiency in the complex processes which were employed in the production of this leading organ of the gutter press when it was in printed form, such as:

- \* Our sub-editors no longer have to devise headlines which have equal length halves with a suitable gap between two words to allow printing over the fold between successive pages
- \* We have freed up a large area of storage space where we kept the vast quantities of A4 paper used (up to 180 sheets per issue!) and the ink (which was kept in a 4-litre ice cream tub under the printing press)
- \* Despite the protests from their union, the *Amalgamated Typographers, Typesetters & Ink Layers Association* (ATTILA), we have dispensed with the services of all of our print shop staff, who were all on zero-hours cont-

## ON THE FRONT COVER

*Keith and Lesley are seen here taking part in the 2019 Drive-It Day run, on the 28th April. Club cars met up at the Hobby Horse pub car park in Syston, before a 40-mile run out to the Vale of Belvoir, which finished at the Windmill Inn in Redmile for a slap-up lunch.*

# MY TRAIN TIMETABLE & TICKETS TURMOIL DURING CLUB HOLIDAY IN YORKSHIRE, WHEN EXPECTED STEAM LOCO IS DIESEL-ELECTRIC RAILCAR WITH A SHIPLAP BODY

Story by Vicki Friend

Pictures by John Beasley & Vicki Friend

John and Jeni Beasley organised this interesting and different two days away in the beautiful Yorkshire Dales in September. Nineteen intrepid NLMG Club members took part. The hotel was comfortable and well-appointed, and there was a wide variety of choice for both breakfast and dinner.

The first day was a free day and there was guidance as to the sort of places we could visit if the area was unfamiliar. We were lucky with the weather, as after the torrential rain of the day before, the day was largely sunny and quite warm.

## STEAM TRAIN

Now a brief saga! I had found a little steam train railway fairly nearby which I booked before leaving home, the Bolton Abbey to Embsay railway. Doug said he would join us which was lovely.

## WRONG END

On the day however we went to the wrong end of the line. Terry spotted a note saying the run started in Embsay. We beat it back there and missed the train by 2 minutes - yes really. I was told my ticket wasn't valid anyway, as I had booked the 22<sup>nd</sup> not the 29<sup>th</sup> of September!

## OTHER END

We thought about dashing to the other end to ride back but realised that our car would be at Bolton

*(Continued on Page 4)*

*ABOVE: Our sub-editor is not quite sure which station (Bolton Abbey or Embsay) the railway's pride-and-joy diesel electric railcar is picture at. But its wood construction made it doubtful that it will reach the other end of the line, anyway.*

*BELOW: These club members put on a brave smile at Embsay station, as they hide their disappointment when they realise that the train is not steam-hauled.*

Abbey and we would be at Embsay. So we decided to wait for the train's return and offer our apologies to Doug. He had the good grace and kindness to forgive me.

## DIESEL-ELECTRIC

By this time others from the club arrived for the 12 noon train. The lovely person on the ticket desk worked some magic and got my ticket transferred to allow Terry and me to take the noon train too. It wasn't a traditional steam train but a 1903 diesel electric train which has won several awards.

After that we parted company, folk took the afternoon exploring the different towns and villages such as Skipton, Pateley Bridge, Brimham Rocks, Fountains Abbey etc., from a long and helpful list provided by the Beasleys.

The following day the weather was less kind. We set off for a run that stopped in two villages, Burnsall and Eastby. In each we were asked to answer a dozen clues. It was fascinating to see the details that a normal visit might miss. It was commented that Burnsall was rather different to the day before when there was hardly any room to move and all the little shops were open. It was interesting holding an umbrella, question sheet and pen! I didn't envy Jeni sorting out the soggy answer sheets.

## OLD MONEY

We also had a money quiz but using 'old money'. And very ingenious they were too. Jim and Mary won this on a tie-break. The answers to the village Treasure Hunt were announced and this was won by Keith and Lesley with David and Chris Pay second after a tie-break with Ron and Val.

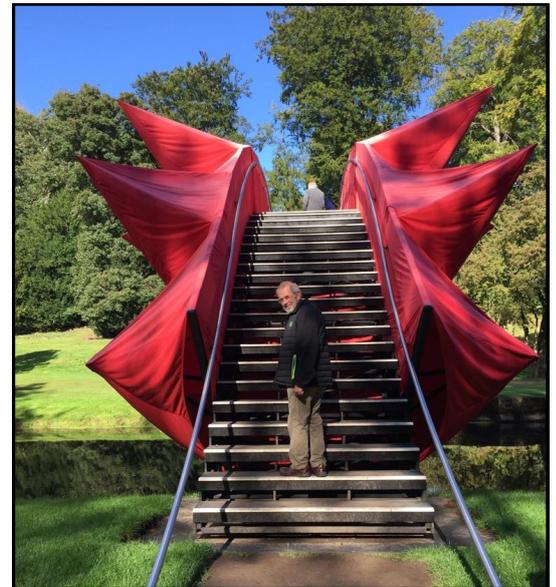

It was a highly successful couple of days in a beautiful part of the country. Huge thanks must go to John and Jeni who, obviously, must have worked really hard to organise it.
